

CribMaster Purchasing

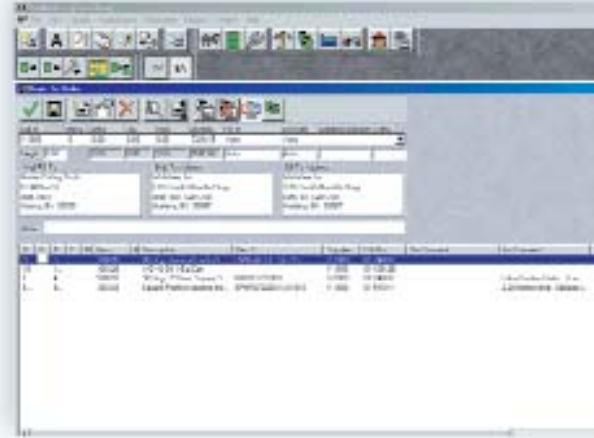

Keeping up with your inventory count and the replenishment of your stock can sometimes be overwhelming. The CribMaster system includes a complete purchasing package to handle replenishment from multiple sources. By monitoring usage and lead times, CribMaster will suggest when and how many items to reorder. CribMaster constantly calculates usage, lead times, suggested order points and quantities, then notifies you when you should reorder. CribMaster will also track your purchasing history and give you access to it with the click of a mouse.

CribMaster Complete Purchasing will allow you to:

- Automate the Replenishment of Your Inventory**
- Accurately Monitor Usage**
- Notify Suppliers of Needed Items**
- Keep a Lower On-Hand Supply**
- Make Well-Informed Decisions Based on History**
- Store Order Information to Fit Each Supplier**
- Have Fewer Stock Outs, Overstocks, Red Label Shipments, Missed Deadlines, etc.**
- Save Time and Money by Managing Inventory Better**
- Create Blanket Purchase Orders**

The CribMaster Purchasing System brings many functions and features to your shop floor, including:

- Total Replenishment System**
