

## CribMaster Toolbox

The CribMaster Toolbox is the latest innovation in secure point-of-use distribution. We've combined the world's leading toolcrib automation software, CribMaster, with durable and reliable electronically controlled hardware. Affordable and secure point-of-use distribution is now available for a wide variety of items. All types of industrial firms can benefit from efficient, cost accountable tool dispensing without a large capital investment.

*The CribMaster Toolbox will allow you to:*

**Provide Secure Point-of-Use Distribution**

**Easily and Immediately Access Your Tools**

**Eliminate Overuse by Employee, Department, Machine, etc.**

**Make Decisions with Accurate, Up-to-Date Information**

**Automate Your Replenishment**

*The CribMaster Toolbox brings many functions and features to your shop floor, including:*

**Handling Integrated Supply**

**Bar Code Scanners**

**Touch Screen Interface**

**Handling Consignment/Non-Consignment**

**Tracking Usage History**

**Flexible Security/Product Access Control**
